Certificate of Approval of Design for Special Form Radioactive Material

Title: Oil Well Logging Source - Assembly X.2110 (formerly XN.319/XN.320)	
Drawing Nos and Specification References	
Assembly Drawing: A 61986 Issue C Special Form Drawing List SFDL/256 Issue 2 RSD/CTR/138 Dated 16 October 1981 QA/MS/256/0101 Issue 1 dated 1 February 2001	
Q.A. Programme Ref: Nycomed Amersham plc & AEA Technology's IPDQAM	
Radioactive Material	Maximum Activity
Americium 241/Beryllium	555 GBq

THIS IS TO CERTIFY that the Secretary of State for the Environment Transport and the Regions being, for the purposes of the Regulations of the International Atomic Energy Agency, the Competent Authority of Great Britain in respect of inland surface transport and of the United Kingdom of Great Britain and Northern Ireland in respect of sea and air transport and the Department of the Environment for Northern Ireland being the Competent Authority of Northern Ireland in respect of inland surface transport, have approved the above mentioned Special Form Design. Radioactive material manufactured to the above-mentioned design qualifies as special form radioactive material and as such will meet the requirements of the regulations overleaf.

This Certificate of Approval applies only to the design as set out in the above named drawings and specifications submitted by AEA Technology plc

In the event of any alteration to the design or manufacture of the Special Form Radioactive Material, or in any of the facts stated in the application for approval, this certificate will cease to have effect unless the Competent Authority is notified of the alteration and the Competent Authority confirms the certificate notwithstanding the alteration.

This Certificate Cancels all Previous Issues and is valid until 30 April 2004
