

**CERTIFICATE OF TESTING FOR USDOT SPECIAL FORM CAPSULE**  
**LANL DRAWING 90Y-219966**

This certifies that the specimens of Special Form Radioactive Material Capsules, manufactured in accordance with the above-cited drawing, have been tested to meet the requirements established in 49CFR173.469, and have been found to be in compliance with, the following specifications:

- 1) ANSI/HPS N 43.6-1997 Sealed Radioactive Sources, Classification
- 2) ESA-EPE-ADM-013.0 Revision 1 Special Form Radioactive Material Capsule Specification Testing, Approved February 28, 2000

The following physical tests were performed:

- 1) Impact
- 2) Percussion
- 3) Bending
- 4) Heat

Test results are compiled in Test Report #20545, and are held on file for review by authorized individuals, upon request.
