CERTIFICATE OF CONFORMANCE

This certifies that the specimens of Special Form Capsule, manufactured in accordance with Los Alamos National Laboratory (LANL) drawing number 90Y-220045, have been tested to meet the requirements established in 49 CFR 173.469, and have been found to be in compliance with the following specifications:

1. ANSI/HPS N 43.6-1997 Sealed Radioactive Sources, Classification
2. E-WMOSR-004, 1.5" Special Form Radioactive Material Capsule Specification Testing, September 16, 2002

The following physical tests were performed:

1. Heat
2. Percussion
3. Impact
4. Leakage

The leakage-test performed was a vacuum-bubble test, as identified in Annex A, Method A.2.2.1 of ANSI/HPS N43.6-1997. The tests results were compiled in Test Report #25166, and are held on file for review by authorized individuals, upon request.
