IAEA CERTIFICATE OF COMPETENT AUTHORITY

Special Form Radioactive Material Encapsulation

Certificate Number USA/0096/S

(Revision 1)

This certifies that the encapsulated source, as described, when loaded with the authorized radioactive contents, has been demonstrated to meet the regulatory requirements for special form radioactive material as prescribed in IAEA 1/ and USA 2/ regulations for the transport of radioactive materials.

I. Source Description - The source described by this certificate is identified as Monsanto Research Corporation Model No. 2408 which ~~is a stainless steel encapsulation~~ measuring 5" in length by approximately 1/2" in diameter.

II. Radioactive Contents- The authorized radioactive contents of this source consist of not more than 2.6 curies of Americium-241 as oxide mixed with aluminum powder.

III. This certificate, unless renewed, expires April 30, 1983.

This certificate is issued in accordance with paragraph 803 of the IAEA Regulations 1/, and in response to the March 7, 1980 petition by the Monsanto Research Corporation, Dayton, Ohio, and in consideration of the associated information therein.
