IAEA CERTIFICATE OF COMPETENT AUTHORITY
SPECIAL FORM RADIOACTIVE MATERIALS

CERTIFICATE USA/0695/S-96, REVISION 8

This certifies that the source described has been demonstrated to meet the regulatory requirements for special form radioactive material as prescribed in the regulations of the International Atomic Energy Agency¹ and the United States of America² for the transport of radioactive material.

1. Source Identification - Southwest Research Institute (SwRI) Model III Source Capsule (formerly Los Alamos National Laboratory (LANL) Model III Source Capsule).
2. Source Description - Cylindrical single over-encapsulation consisting of a capsule body, sealing plug, and cap made of stainless steel that provides a metal-to-metal seal when assembled. Approximate outer dimensions are 63.5 mm (2.5 in.) in diameter and 177.8 mm (7.0 in.) in length. Minimum wall thickness is 7.62 mm (0.3 in.). Final assembly shall be in accordance with either attached SwRI Drawing SWRI_SFC_III_P, Rev A, or LANL Drawing No. 90Y-220045, Rev. A.
3. Radioactive Contents - The capsule described by this certificate is authorized to contain any one of the following single radionuclides, the sole pair of radionuclides, or either one of the two sets of six (6) radionuclides, in the chemical forms identified, and limited to the activities shown, in the table below. The radioactive material is limited to solid form in stainless steel capsules, between layers of non-radioactive stainless steel, or affixed to non-radioactive stainless steel by electroplating or other means. The maximum mass of the contents is limited to 1,000 grams.

¹ "Regulations for the Safe Transport of Radioactive Material, 2012 Edition, No. SSR-6" published by the International Atomic Energy Agency (IAEA), Vienna, Austria.

² Title 49, Code of Federal Regulations, Parts 100-199, United States of America.

Radium-226:Be	370.0 GBq (10.0 Ci)	Sulfate, chloride, or halide carbonate mixed with beryllium target material

4. Special Conditions -

- a. Capsule assembly and documentation shall be conducted in accordance with SwRI procedure SFC-001, Rev 1, QA and Assembly of Special Form Capsules (SFC) or SFC-002, Rev 1, Closure of Special Form Capsules (SFC).
- b. Capsule components must have been obtained from either SwRI or an SwRI Approved Vendor.
- c. A copy of the applicable, completed Traveler Sheet required by SwRI procedure SFC-001, QA and Assembly of Special Form Capsules(SFC) or SFC-002, Closure of Special Form Capsules (SFC), shall be attached to this IAEA Certificate of Competent Authority to demonstrate the regulatory requirements for special form radioactive material have been met.
- d. Capsule assemblies successfully closed in accordance with earlier procedures shall remain valid.

5. Management System Activities

- a. Each assembler of the Model III Source Capsule shall register their identity, in writing, and provide evidence of a Management System based on international or national standards to the Office of Hazardous Material Technology (PHH-23), Pipeline and Hazardous Materials Administration, U.S. Department of Transportation, Washington, D.C. 20590-0001.

CERTIFICATE USA/0695/S-96, REVISION 8

- b. Assembly of the Model III Source Capsule shall be performed under the Management System registered with the U.S. DOT.
 - c. Records of Management System activities required by Paragraph 306 of the IAEA regulations shall be maintained and made available to the authorized officials for at least three years after the last shipment authorized by this certificate. Consignors in the United States exporting shipments under this certificate shall satisfy the requirements of Subpart H of 10 CFR 71.
6. Expiration Date - This certificate expires on November 30, 2025. Previous editions which have not reached their expiration date may continue to be used.

This certificate is issued in accordance with paragraph(s) 804 of the IAEA Regulations and Section 173.476 of Title 49 of the Code of Federal Regulations, in response to the June 30, 2020 petition by Southwest Research Institute, San Antonio, TX, and in consideration of other information on file in this Office.
